RE: Annual Share Holder Meeting

Ms Maver Carey,

The Traditional Council and the Community Members of Kalskag would like to thank, The Kuskokwim Corporation for having the Regional Tribal Share Meeting in Kalskag. The staff of the Kuskokwim Corporation and the Tribal Staff, did the best that they could have done with the limited amount of time and facilities available in our village.

As all are aware, we have lost our High School to a fire and the elementary school is in the midst of being renovated. We understand that the gathering had to take place in Kalskag and appreciate TKC staff in making it happen. We are looking forward for next as our High School and Elementary school will be completed and the students will be back on regular class schedules. It would have been a great opportunity for TKC to be the first organization to use the facilities.

Thank you in advance,

Julia Dorris-President
